**Suggested arrival times into Fargo when travelling via airline are between 11:00 a.m. and 7:00 p.m. on the day before class starts. Arrival times after 7:00 p.m. can make for a late night when combined with possible flight delays, drive time to Detroit Lakes (one hour), and check in at the hotel. Evening arriving flights are usually the last flights of the day for the Fargo route. If there is a long delay or flight cancellation, it typically results in being stranded overnight in your connection city and missing the first day of training.*
